Knowledge Check**

KNOWLEDGE CHECK

To ensure success in [Exercise Green Cloud](#), it is recommended you complete the 15-question knowledge check. Self-Care Decontamination covers a wide array of information and this checklist tests your knowledge of some of the components found in the training materials. It is not a complete assessment of the training material. If you are unable to answer a question, or you want additional information, please consult the training material (e.g., videos and manual). Please review your responses with the attached answer key.

Part A: Circle the Best Answer

1. What is the purpose of Self-Care Decontamination?
 - a) Replaces technical decontamination
 - b) To begin decontamination as soon as possible
 - c) To avoid medical attention
 - d) To determine the level of chemical exposure

2. To assist with the communication to contaminated persons in a CBRNE, SIMTEC recommends:
 - a) A script to be read by first responders (i.e., first on scene)
 - b) Self-Care Decontamination protocols
 - c) Addressing the anxiety of being decontaminated
 - d) All of the above

3. The first step in Self-Care Decontamination is to:
 - a) Send people home
 - b) Technical decontamination
 - c) Maintain safety and control of exposed victims
 - d) Personal-wipe down

4. The buddy system:
 - a) Engages people so they are less likely to leave the scene
 - b) Instills responsibility to help other contaminated persons
 - c) Helps persons who have mobility issues to move from the hot zone to a warm zone.
 - d) All of the above

5. Before Self-Care decontamination is to begin, first responders should:
 - a) Maintain a team environment and instruct the group to work cohesively
 - b) Move contaminated persons towards a warming bus or shelter
 - c) Instruct contaminated persons to put on an ID bracelet
 - d) Determine where the HazMat Team should setup

6. After distributing Self-Care Decontamination Cleaning Kits, first responders should:
- Demonstrate how to open the kits and show people how to use the wipes
 - Tell people where to go following technical decontamination
 - Inform contaminated persons when the HazMat Team will arrive
 - Call a local politician for assistance
7. When Self-Care Decontamination has finished (i.e., moving to a warming shelter/bus), what will contaminated adults be left with?
- A cover-up
 - A cover-up, flip flops, an ID bracelet, and water
 - A cover-up, flip flops, an ID bracelet, blue bag #1 (if permitted), and a foil blanket
 - Nothing
8. The main purpose for moving patients to the warming shelter or bus is to:
- Prepare for HazMat/medical assessment
 - Reunite victim's with their possessions
 - Count the number of casualties
 - Help first responders relax
9. Providing children with a _____ found in their kit before the HazMat team processes them may help reduce future anxiety.
- FAQ pamphlet
 - Decon doll
 - Water
 - Food
10. The value of Disaster Psychosocial Services (DPS) is they can:
- Assist in reducing stress during disaster situations both during and after an event
 - Provide crowd control
 - Act as medical doctors
 - Develop new policies for police response

Part B- Circle or underline the best answer (true or false) for each question

11. The Self-Care Decontamination Protocols are integrated with four different cleaning kits: adults, children, infants, and guide or therapy pets.
TRUE FALSE

12. As indicated in a training video, “HazMat team members should follow their own protocols for triage.”

TRUE FALSE

13. Having a buddy does not provide immediate social support or make contaminated persons feel less isolated.

TRUE FALSE

14. According to the training video material, Disaster Psychosocial Services (DPS) personnel [or other providers of psychological first aid] can provide psychosocial services to citizens and responders.

TRUE FALSE

15. The pictograph handout found in the Self-Care Decontamination kits will only help the first responder.

TRUE FALSE

KNOWLEDGE CHECK-ANSWERS

Part A

1. b
2. d
3. c
4. d
5. a
6. a
7. c
8. a
9. b
10. a

Part B

11. TRUE
12. TRUE
13. FALSE
14. TRUE
15. FALSE
