Exercise Green Cloud

When, Where and Who?

Date: **November 17, 2014**

Time: **12:00 – 1:00**

Location: **JIBC – Theatre**

715 McBride Boulevard,
New Westminster, BC,
Canada, V3L 5T4

Participants: Faculty, Instructors, Students

Police, Fire, Paramedics,
Emergency Management,
Emergency Social Services

The SIMTEC Project is proud to present Exercise Green Cloud and its Self-Care Decontamination Protocols based on a simulated Chemical, Biological, Radiological, Nuclear and Explosive (CBRNE) event. The SIMTEC Project team will share how applied research contributes to improve training materials for JIBC students and other public safety professionals. Come and watch the training and awareness video and find out:

- ☛ What were the key lessons learned in engaging in Self-Care Decontamination and what should you do if you become contaminated?
- ☛ What was learned when at-risk populations (e.g., children, persons who were blind) participate in a full-scale exercise in cold weather?
- ☛ What were the psychosocial impacts and how can they be alleviated?

Come and join us, and you could win a door prize.
